

Financial System Modernization Project
Acquisition Forecast Database record # FY05-260
Questions and Answers Document #2
September 2, 2005

The following questions were submitted between August 19, 2005 and September 1, 2005

Question 7: Criteria #6 under the draft down-select criteria refers to "Tier 3 qualifications as provided by the Uptime Institute (see attachment)". I cannot find this attachment on your website. Will you please tell me where I may find this attachment?

Answer 7: Criteria #6 will be corrected to read, in part, "Tier 3 qualifications as provided by the Uptime Institute (available at: <http://www.upsite.com/TUIpages/whitepapers/tuitiers.html>)".

Question 8: By when would the Government like comments on the draft documents?

Answer 8: At this time, the EPA has not established a specific due date for comments on the draft documents. The Government's goal is to release the solicitation during the fourth quarter of FY 05, so the sooner we are informed of information which is unclear or which generates other questions, the sooner we can provide a clarifying response or revise the documents, if necessary.
